Writing Right: How to Tell Your Story Effectively
16303CR
We all have stories to tell about our lives, our history, our work and our adventures. Where should we begin? We could start by writing our own obituaries. We could expand on that idea and write a memo, or we might want to hone our skills to write effective opinion pieces, columns or stories for local publications. This course will help you find a focus for your story and a structure that will make the most of what you have to say. We will work with the class to see where students prefer to spend most of their time and will adapt to the group’s needs.

In addition to offering tips and guidelines, we will be sure each student receives gentle feedback and critiques, if they want them.

Outstanding Popular Music Artists
16313CR
The middle years of the 20th century, from about 1930 to 1970, spawned a large amount of outstanding popular music. In the first part of that period, big bands, some with exceptional vocalists and some just playing instrumentals, were very popular. In the ‘40s, several vocalists were featured with bands and groups for background. This extended through the entire period although less placid music known as rock ‘n roll came into the picture with a bang in the mid ‘50s. For several years after this, the bands, calm vocalists and musical rock ‘n roll dominated popular music until at least into the ‘70s.

The Unmagnificent Seven: Presidents Who Failed the Constitution
16310CR
Being the president of the United States is a tough enough job when all goes well. The job becomes more difficult when people and circumstances do not cooperate. However, the presidency becomes a nightmare when the occupant is either incompetent or hires incompetents who speak and act on the president’s behalf. We will examine several White House occupants who seemingly went far out of their way to prove true that one can rise, if not soar, far above their abilities. From Civil War hero to congenial governor, from respected intellectuals to feckless politicians, their administrations were among the most corrupt or incompetent—and being ranked among the top in this exclusive list should not be a matter of pride.

Instructor: Thomas H. Berg, lecturer, History, UNL
Day/Dates: Tue, Jan 26, Feb 2, 9, 16, 23, Mar 1
Time: 9-10:30 a.m.
Location: Lincoln Firefighter’s Reception Hall

**Daily Life in the Ancient World**

**16316CR**

Most courses on history are about generals, politicians and other prominent individuals who are believed to have shaped history in significant ways. But people who are anonymous and whose lives are usually ignored in traditional historical accounts are no less important in influencing the flow of events, not least because of the dogged persistence in surviving every challenge that life throws at them. It is these ordinary, but often heroic people who are the focus of this DVD course by Robert Garland, professor of classics at Colgate University. We will explore the social, cultural, economic, religious and medical realities that dominated human lives, from the emergence of the hunter-gatherer in prehistoric times through the Middle Ages. Each class will consist of watching DVD lectures followed by discussion.

**The Faith of American Presidents**

**16315CR**

In this course, we will examine the role that faith played in the lives of twelve recent American Presidents starting with Harry Truman. For example, Dwight Eisenhower tried to conceal his upbringing as a Jehovah’s Witness during his presidential campaign and was baptized a Presbyterian after becoming President. Richard Nixon was the second Quaker to be elected President. While John F. Kennedy’s Catholic religion was a major campaign issue, it has been his alleged affairs and secularity that have been widely discussed and documented.

Place Matters for Health
16319CR
Studies show that your zip code is more important than your genetic code in determining your health. To improve health outcomes in our community, we must look beyond health care at a variety of factors impacting health. In its “Place Matters Community Mapping Project,” the Community Health Endowment of Lincoln (CHE) mapped many of these factors including poverty, crime, access to healthy food and more. The resulting maps inspired CHE’s new funding priorities and can serve as a resource for other community initiatives. This course will examine the approach and data behind Place Matters, look at the intersection of community development and health, and discuss how Lincoln can use this information to become “the healthiest community in the nation.” The course will conclude with an interactive exercise that gives you the opportunity to share your thoughts and ideas about priorities around health, health care and community development in Lincoln.

Instructors: Lori Seibel, president/CEO, Marcia White, program manager, Community Health Endowment of Lincoln
Day/Dates: Tue, Jan 26, Feb 2, 9, 16
Time: 3-4:30 p.m.
Location: Community Health Endowment. Parking is available in front of the building along 21st Street, or in the parking lot north of the intersection of 21st & Q.

Location: SCC-CEC
Cost: $22

**The Secularization of American ‘Goodness’ and the Decline of Institutional Religion**

**16321CR**

The course examines the changing source of America’s ‘public goodness.’ French scholar Alexis de Tocqueville saw this ‘goodness’ as shaping American’s distinctive Ethos of liberty, equality, and self-rule and the writing of the U.S. Constitution and its “Bill of Rights.” He traced this public goodness to America’s churches. This course will explore the claim that from the 1900s through the 1970s and the arrival of a new ‘post-modern era, the rising generations have been looking more and more to values embedded in the U.S. Constitution and in secular humanitarianism and less and less to antiquated religious doctrines, moral absolutes or to the seeming selective compassion of the Church. In addition, this course will discuss related questions, such as: Is being right the social good, or is being good what’s socially right? Why do governmental efforts to promulgate public goodness consist mostly of criminalizing only the private behavior of individuals, or of occasional corrective, after-the-fact social rulings by the US Supreme Court? Opportunities will be offered during class for questions and discussions.

**Instructor:** Bob Jeambey, retired clergy and former journalist

**Day/Dates:** Wed, Jan 27, Feb 3, 10, 17, 24, Mar 2

We then show you how to use Facebook to make friends, share your thoughts and pictures and even add in “extras” that can make using Facebook a lot of fun.

The Magic of the Metropolitan Opera

16327CR
Even passionate music fans may be forgiven for considering Opera over-the-top. After all, how better to describe an art form that flaunts convoluted plots, incomprehensible lyrics, stormy orchestration, hyperbolic acting, exotic staging and temperamental singers? Yet, Opera has been around for four centuries and continually adds new converts. It’s simple. Accompanied by an orchestra, scenery, costumes and light to add drama, singers tell a story in song. The “Live from the MET” operas are shown at the Ross Film Theatre on the Saturday and Sunday following each class.

The operas being presented are Georges Bizet’s “Les Pecheurs de Perles (The Pearl Divers),” and Giacomo Puccini’s “Turandot” and “Manon Lescaut.”

Events that Changed the Course of World History Part II

16330CR
If you are interested in the origins of things, then this second in a series of three courses may be just right for you. In this DVD course, we will watch and listen to two half-hour lectures by J. Rufus Fears, professor of Classics at the University of Oklahoma, followed by a 30-minute discussion. You do not need to have attended the first of the series to enjoy this course.

Rufus does not attempt a summary of all world history. Instead, he identifies the events that had a profound impact. In this course, we confront Dante and the Divine comedy, and if that is too upbeat, we will look at the black death that killed 75 million in Europe in the 14th century. We will voyage with Columbus, only to return to Michelangelo and the Sistine Chapel. We will hear the story of Desiderius Erasmus and how he laid the foundation for protestant reformation by the publication of his Greek-Latin New Testament in 1516. We will learn about the defeat of the Spanish armada in 1588, the Battle of Lexington in 1775, and the Battle of Gettysburg during the Civil War. Finally, we will turn our attention to Charles Darwin and Louis Pasteur.

Plowing More Deeply: A Thoughtful Look at Nebraska’s Agricultural Economy

In this course we tap UNL expertise to learn more about the industry that is no longer what you remember from visiting your grandparents’ farm. How big is farming in Nebraska? How valuable are those acres to the owners or to their heirs and as producers of property taxes? What is the significance of our agricultural exports? What about agriculture’s future need for resources, including water and its environmental footprint? What might be some alternative approaches to producing food? If some of those questions intrigue you, this may be a place to explore answers.

The Taste of Lincoln: Exploring Cultural Cuisines

What we cook and eat is a function of our cultural experiences. For example, the baguette is representative of French cuisine, bagels and lox are associated with Jewish fare and jambalaya is often served as part of a Cajun meal. We present “The Taste of Lincoln: Exploring Cultural Cuisines,” which provides you with an opportunity to visit Lincoln restaurants that draw on cultural cuisines for a variety of taste experiences. In order to illuminate these dining experiences, we are also offering an informational seminar a couple of weeks before each dinner, where you will learn about the cuisine, culture and personal experiences of the chefs and/or restaurant owners who brought the food of their homeland to Lincoln. The informational classes are independent of the dinners. You may register for any or all as your interest and time allows.

In Cold Storage: Sex and Murder on the Plains)

16362SE
In 1973, the small southwest Nebraska railroad town of McCook became the unlikely scene of a grisly murder. More than forty years later, author James W. Hewitt returns to the scene and unearths new details about what happened. Hewitt will present his bestselling book “In Cold Storage.”

After pieces of Edwin and Wilma Hoyt’s dismembered bodies were found floating on the surface of a nearby lake, authorities charged McCook resident Harold Nokes and his wife, Ena, with murder. Harold pleaded guilty to murder and Ena pleaded guilty to two counts of wrongful disposal of a dead body, but the full story of why and how he murdered the Hoyts has never been told.

“In Cold Storage” takes readers through the evidence, including salacious details of sex and intrigue between the Hoyts and the Nokeses, and draws new conclusions about what really happened between the two families on that fateful September night.

Day/Date: Fri, Feb 5
Time: 1-3 p.m.

Cost: $5 An autographed copy of the book will be available for purchase at the presentation for $15.

OLLI and the Confucius Institute Partner for China Trip
May 9-19, 2016

Very few countries can boast the length and breadth of history as China. To help you experience the rich cultural heritage of this ancient civilization, OLLI and the UNL Confucius Institute have organized an 11-day trip to China in May 2016.

We’ll travel to three representative cities in China: Beijing, the country’s political and cultural center; Xi’an, an ancient city which served as the capital for 13 dynasties in Chinese history; and Shanghai, a modern and thriving metropolis. We’ll enjoy an entire day on an escorted tour of Tiananmen Square; tour the Forbidden City; hike the Great Wall; see the Terracotta Warriors and Horses Museum; and so much more.

To help you better prepare for this trip, a course in Chinese culture and language are again being offered in Term 3. Topics will include Chinese language, food, education, marriage and family. The course is open to all OLLI members.

Travel Costs:
$2,500 per person double occupancy
$3,150 per person single occupancy
Price excludes international flight tickets; travel insurance and visa fees

For a complete itinerary and more information, download a brochure and registration form at http://go.unl.edu/c249
The Phantom of the Opera
April
A special evening is being planned in late April for an Omaha motor coach trip to enjoy Cameron Mackintosh’s spectacular new production of Andrew Lloyd Webber’s classic musical “The Phantom of the Opera.” This production has been hailed by critics as “bigger and better than ever before.” The evening will begin with a special dinner at one of Omaha’s premiere restaurants.

Tulip Festival
May
One of our nation’s top festivals is held in Pella, IA. Tulip Time brings visitors from throughout the United States to Pella and its celebration. Reserve May 6 for OLLI’s visit to Pella. We will enjoy special seating for the big parade complete with street scrubbing that celebrates Pella’s Dutch heritage. Arts and crafts are found throughout the community, and food specialties cannot be ignored. The trip will be a two-day excursion with an overnight stay in Des Moines and a visit to some of the sights in Iowa’s capital city.

Kansas City Royals and Minnesota Twins Baseball
August
OLLI members had such a great time last August on our baseball and jazz tour to Kansas City that we are planning another trip to watch the Royals in action. However, this time it will be to Minneapolis, MN, August 12-14, to watch the Royals and the Twins. Additional activities in the Twin Cities will also be scheduled.

Sesquicentennial
Our 2016 and 2017 travels will include several special tours within Nebraska to celebrate our state’s sesquicentennial. Planning has started for a September, 2016 tour of Nebraska’s panhandle. This is the land of Mari Sandoz, Toadstool Park and Carhenge. We will visit several sites that have played important roles in the development of our state and our nation’s westward expansion. Additional tours will focus on our Sandhills and Northeast Nebraska.

International Tours
The OLLI website includes full descriptions of our Tanzania Safari scheduled for July 9-20, and the Seine River Cruise from Paris to Normandy, October 14-26. Registration for these two international tours will remain open until April 2016. Download documents for these trips at http://olli.unl.edu/travel-opportunities.

These tours are being offered by Valden Tours, Inc., our travel partner. Get complete details and registration forms in two ways:

Our annual theme, “The Face of Lincoln: History, Culture and Change,” is taking us on a journey to investigate the diversity of cultures. This year’s movies each tell an entertaining story while also expanding on the theme by giving us a look at, and inside, cultures quite different from Lincoln, Nebraska. The characters in each film undergo a transformation because of their cultural experiences, just as we do when we interact with people who come from different cultures. A short discussion will follow each movie showing. A beverage and popcorn will be provided.

**Location:** HECO, Room 23. A UNL parking permit is not required.

**Show Time:** 1:30 p.m. for all of the movies.

**Cost:** $5 Registration is required for each movie. Open to OLLI members and a guest.

16366SE

Sun, Feb 21

Four older women, all Chinese immigrants living in San Francisco, meet regularly to play mahjong, eat, and tell stories. Each of these women has an adult Chinese-American daughter. The film reveals the hidden pasts of the older women and their daughters and how their lives are shaped by the clash of Chinese and American cultures as they strive to understand their family bonds and one another. “Both sweeping and intimate, [The Joy Luck Club is] a lovely evocation of changing cultures and enduring family ties.” Janet Maslin, New York Times.

**Starring:** Tamlyn Tomita and Rosalind Chao

**Run time:** 2 hours, 19 minutes.

**Rated:** R - Strong depiction of thematic material

Wholeheartedly against Jess’ unorthodox ambition, her parents eventually reveal that their reservations have more to do with protecting her than holding her back. When Jess is forced to make a choice between tradition and her beloved sport, her family must decide whether to let her chase her dream or follow a more orthodox path.

**Starring:** Parminder Nagra and Keira Knightley

**Run time:** 1 hour, 52 minutes.

**The Man Who Would Be King**

16365SE

Sun, Jan 31

This good old-fashioned adventure film, adapted from a lesser-known Rudyard Kipling story, tells the tale of two British soldiers who decide to create an empire of their own by traveling from India into the wild Afghan mountains. They set themselves up as deities in Kafiristan – a land where no white man has set foot since Alexander the Great. Gorgeous landscapes and bizarre local rituals make for a sometimes funny, often brutal ride, even if the heroes are cocky and still believe in making the world a better place just by being British. It is an entertaining and interesting look at an area of the world that has become significant in the decades since the movie was made.

**Starring:** Sean Connery and Michael Caine

**Run time:** 2 hours, 9 minutes.

**Rated:** PG

Winter Lecture Series

National Identity and the Politics of Nationalism

As we face international issues of poverty, water shortages, food security, climate change, wars, terrorism, refugees, and nuclear proliferation, people create and confront those problems in nation states that do not always claim their identity and loyalty. Instead, identities may be based more strongly on affiliations that are tribal, cultural, racial, regional, religious, or even international. This lecture series examines the complex subject of how national and other identities and loyalties are manipulated and constructed, and the role they play in world affairs.

Location: Unitarian Church
Time: 7-9 p.m.

Sun, Feb 14: Introduction and Overview. Professor David Forsythe, University of Nebraska-Lincoln.

Sun, Feb 21: Europe. Professor Mark Orzag, Doane College.

Sun, Feb 28: The Middle East. Professor Mahood Monshipouri, San Francisco State University.

Sun, Mar 6: South Asia. Professor Robert Oberst, Nebraska Wesleyan University.

Sun, Mar 13: Africa. Professor Dane Kennedy, George Washington University.

Sun, Mar 20: Panel discussion. Reactions and summary. Participants TBA.

For more information, contact Dick Dienstbier at rdien@neb.rr.com.

The lecture series is supported by a major grant from Humanities Nebraska.
