COVID-19: Policies and Guidelines

As the University and Nebraska-Lincoln and OLLI resume some in-person activities, guidelines are in place to prevent the spread of COVID-19 and create a safe and healthy environment for everyone. **All in-person courses are offered with the understanding that they may be cancelled at any time due to the status of the coronavirus.**

Whether the in-person course is on or off University campus, follow these policies and guidelines to protect yourself and others from exposure to the virus.

**Facial Coverings**

Wear a facial covering at all times when indoors attending an OLLI in-person course on or off campus.

Facial coverings are also required in outdoor settings if physical distancing of 6 feet or more for gathering practices is not possible. There are no universal design standards for facial coverings. However, the covering must extend from the bridge of the nose to below the chin.

- Reusable cloth facial coverings are acceptable, as are disposable paper masks.
- Regardless of the type used, a facial covering should not be designed with an exhalation valve.

**Additional protective measures**

To optimize the wellbeing of everyone who participates in the OLLI program, follow these protocols:

- Practice physical distancing by maintaining 6 feet of space between yourself and others.
- Self-monitor for symptoms and stay home when ill or after having been exposed to someone known or suspected of having COVID-19.
- Wash your hands often and thoroughly or consistently use hand sanitizer.
- Refrain from touching your face, eyes, nose, and mouth.

Preparing for Zoom Classes!

How do I join a class in Zoom?

You will receive a Zoom link for your upcoming OLLI at UNL class(es) in your registration confirmation email, and in a reminder email prior to class. Next to or underneath each class title, you will see a link – copy and paste that link into your web browser OR click on the link to enter the digital classroom. If your class has multiple sessions, you’ll use the same link every week the class meets.

A Zoom account isn’t required to attend a class session. Anyone can attend a class session using their laptop or desktop (Windows or Mac), tablet, or smartphone (iPhone or Android). A free download of Zoom is available in your application store for your device.

- If you haven’t used Zoom before, leave about five minutes to set it up before your first use.
- If you are planning on using a laptop or desktop, the first time you click on a link it will download a free and secure program to your computer.
- If you are planning on using a tablet or smartphone, you’ll want to download the free and secure Zoom application from your application store.

What equipment do I need to get started?

At the most basic level, all you need to use Zoom is a telephone, such as a smartphone or landline. However, if you have access to a computer or mobile device you can use the full capabilities of Zoom.

The following equipment will enhance your experience but is not necessary:

- **Mobile devices**, including laptops, have cameras and microphones built in.
- **Web camera**: A camera will increase your connection with your instructor and your peers by allowing you to see each other face-to-face. If you do not have access to a web camera, you will still be able to see the instructor.
- **Headset with a microphone**: This will let you hear and be heard more clearly. This does not need to be fancy equipment, it can be the same as the headphones you might use with your phone.
- **Charger**: Charging your device during class will ensure that you do not have an unexpected power outage interrupting your learning. OLLI at UNL is here to assist you. Visit olli.unl.edu or call us at 402-472-6265

Add Us to Your List of Email Contacts

Innovation Campus | 2021 Transformation Drive, Lincoln, NE
FREE | Registration begins June 14, 2021

You are invited to sample OLLI mini-classes.

With thousands having received coronavirus vaccinations across Lincoln and Nebraska, restrictions for gatherings are slowly being lifted. By August, we plan to congregate safely for the 2021 OLLI Showcase. This is an event where you can get a sample of all that OLLI has to offer and socialize with friends old and new.

The first Showcase was held in late summer of 2019. The pandemic prevented us from holding this event in 2020. It’s back! We are planning a great event for 2021 at the same great location.

Live classes will be taught by OLLI instructors. Come experience the joy of learning. Meet like-minded people. Then join us for a social gathering at the end of the day. It’s our way of letting you experience the community that is the OLLI membership.

Watch for more information to come.

Medicare is intimidating and mysterious to many. We will help seniors, and their adult-age children, get a proper understanding of financial and health care perspectives of Medicare. While most of the focus is on the rules of enrollment, that is only the beginning. Social Security’s full retirement age is now greater than 65, and as a result, the Medicare enrollment process and the possible choices facing seniors has become more nuanced, not less.

All Parts of Medicare (Part A, Part B, Prescription Drugs) will be described, as well as both Medigap and Medicare Advantage. The focus will be on what is not explained in manuals, advertisements and television commercials. The instructor, the author of “Maximize Your Medicare,” is frequently cited in the national press and in front of audiences nationwide.

Stand-Up Comedy Writing Workshop 21515CR
Becoming a stand-up comedian is a lot like becoming a senior citizen—all you need to do is quit your day job, rant about politics to strangers, and start getting your drugs from a guy who insists you call him “doctor.” Jokes aside, becoming a stand-up comedian takes more than walking on stage and telling a funny story: It is a serious art form with its own set of rules, genres, and lingo. Luckily, this stand-up comedy workshop crash course is perfect for those who want to dip their toes into the world of professional funny business. We will spend most of our time together writing and workshopping stand-up comedy material, while also learning everything you need to know before you get on stage. By the end of the course, you will be ready to go out into the world and try performing stand-up comedy for the first time.

Soil Health and Nebraska Agriculture

21530CR

The scientists will share research that visually demonstrates the dramatic effects that different farming practices can have on soil health and crop yields. They will also share the opportunities and challenges that ag producers and society will encounter as we adapt soil management practices for greater resilience and productivity under expected future changes in weather and climate.

The Gentle Madness of Collecting Books

Book collecting has been referred to as a "gentle madness." Collectors happily prowl the nooks of used bookstores, paw through boxes at estate auctions, and stand in line for hours at library sales, all in hope of finding prizes for their collections. Some folks collect first editions of books by their most beloved authors. Others collect old medical books that feature archaic diagrams. Some look for vintage science fiction paperbacks that feature particular cover art. The world of book collecting has something for everyone. The unifying element is the thrill of the hunt. There is nothing like the prospect of treasure.

Cinnamon Dokken established A Novel Idea Bookstore in 1991. The shop carries a wide variety of used, rare, and out-of-print books. She'll share stories gathered during her 30 years in the book business and will focus on the basics of book collecting. Topics will include identifying first editions and grading the condition of collectible books. Join us to learn more. If you are not already "gently mad," this class is bound to encourage a new, happy obsession.

Could You Have Pre-diabetes?

Has your healthcare provider stated your blood glucose is higher than normal? What is normal? How can you make a difference? Half of Americans 65 and older have pre-diabetes, which means that nearly 25 million seniors are at risk for developing Type 2 diabetes. That is a staggering number, given that another 25 percent of the senior population already has diabetes. Pre-diabetes can be managed to stop the progression to Type 2 diabetes.

Ask what describes Nebraska, and people worldwide will answer that we are a farm state. Indeed, our nickname “The Cornhusker State” is a testament to our roots. How can we ensure the future of a healthy agricultural tradition which benefits all Nebraskans as we balance our goals to help feed the world while feeding our own Nebraska communities?

Join us as we explore a growing network called RegeNErate Nebraska which is leading efforts to shift away from extractive and predatory industrial food production in favor of regenerative agriculture practices which restore our soil by increasing bio-diversity and incorporating good livestock management practices to fertilize the land. This network believes that everything starts with the soil — all that feeds us, nourishes us and provides us with strength and community. It is who we are as Nebraskans. In the process, regenerative farmers can partner with communities to help reclaim the urban consumer’s connection to the land, as well as to the farmer. Together, the farmer and the consumer can unleash food democracy, instead of succumbing to food scarcity.

**Global Displacement: Political Conflict and Climate Change**
In 2019 at least 150 million persons felt compelled to leave their homes because of political or socio-economic reasons outside the bounds of legal migration. Some were fleeing war, other violence, or persecution. Then there were those fleeing absence of economic opportunity or natural disaster, often linked to climate change (not to mention governmental corruption and other malfeasance like failure to control gang warfare). As a result, there was growing demand for an increased international response by public and private agencies.

Our speakers address the role of various nation-states, international organizations like the United Nations or World Bank, and private actors like Oxfam or Doctors Without Borders, or even for-profit corporations. The objective is a better understanding of the challenges of forced displacement confronting the global community as well as the United States at home and abroad.

The Ancients and Today: The Timeless Quality of Greek Classical Tragedy
Greek tragedy was a form of theatre popular in Greece around the 5th century BC. These plays presented tragic tales of heroes who strove for greatness but were brought low by a combination of fate and their own human flaws. This course will examine the works of the three most famous Greek Tragedy playwrights: Aeschylus, Sophocles, and Euripides.

Container Gardening
If you are short on space, try your hand at creating a patio or container garden. Containers fit well on an apartment patio or balcony, as well as in larger landscapes. The key to being successful involves using larger containers, a good growing media, and selecting vegetables and flowering plants sized right for growing in containers. The instructor will discuss various containers that work well, soil mixtures, watering, and plants that thrive in containers.

Lessons from the Black Death
Can we compare COVID-19 to the Black Death? The instructors will take you back to the 1300’s and tell you what the world looked like back then. Then, they’ll discuss what the world looked like before the Covid-19 pandemic. They’ll characterize the different aspects of the two diseases and discuss reactions to the recent pandemic. Finally, they’ll share with you any “silver linings” that may have resulted from the pandemic.

WAIVER AND RELEASE OF LIABILITY for Osher Lifelong Learning Institute (OLLI)

This WAIVER and RELEASE OF LIABILITY was executed this _____ day of __________, 20__, at Lincoln, Lancaster County, State of Nebraska by _____________________, (Releasor) in favor of the UNIVERSITY OF NEBRASKA and its Regents, Officers, Employees, Instructors, Staff, agents, operators, successors, and assigns (University).

The Releasor wishes to participate in Osher Lifelong Learning Institute (OLLI) Activities. In consideration for the privilege of participation in the program, the Releasor consents and agrees to the following:

1. Releasor certifies that he/she is physically capable of participating in the Activities and that he/she will take responsibility for physical fitness and capability to perform under normal conditions of the Activities. Releasor is encouraged to get his/her physician’s opinion prior to participating in any OLLI Activities. In the event of a medical emergency, the University of Nebraska or its representatives have my permission to take whatever measures they deem reasonable to render assistance and that I will be financially responsible for any expenses involved.

2. Releasor realizes that participation in the Activities involves certain risks and dangers. Releasor has hereby been made aware that participation in the Activities may have the following non-exclusive list of certain risks which I accept: death; head, eye, neck, and spinal injury resulting in complete or partial paralysis; brain damage; heart attack; blisters; cuts; lacerations; abrasions; concussions; contusions; strains; sprains; dislocations; fractures; cold and heat injuries; water immersion; drowning; lightning strikes; injury to bones, joints, muscles, internal organs; and environmental conditions. In addition, I understand and accept the incidental risks of travel to and from the site of activity; participation at sites that may be remote from available medical assistance; and the possible reckless conduct of other participants.

3. Consequently, while understanding that the UNIVERSITY has taken precautions to provide organization, supervision, and equipment for reasonable safety, Releasor assumes joint and personal responsibility for safety while participating in the Activities. Pursuant to that joint and personal responsibility, Releasor agrees to comply with the instructions and direction of representatives and staff members of the University. Releasor understands that failure to abide by the instructions and rules may result in his/her termination from the activity. Releasor accepts personal responsibility to ensure that any equipment needed to participate in the Activities and used by the Releasor is safe and functioning properly and to refrain from causing loss or damage to the property of the University. Releasor realizes that he/she is solely responsible for any personal equipment, supplies, or property he/she may choose to use during the duration of the Activities.

4. Releasor further agrees to indemnify and hold harmless the UNIVERSITY for any and all claims or actions as a result of engaging in, using University facilities and equipment, or receiving instruction for the Activities or any activities incidental thereto whatsoever, whenever, or however the same may occur.

5. Releasor is aware that if he/she uses a vehicle not operated by the University for transportation to, at, or leaving the activity site, the University is NOT responsible for any damage caused by or arising from Releasor’s use of such vehicle. Furthermore, Releasor acknowledges that he/she is solely responsible for any action he/she takes outside the scope of those actions permitted by the University for purposes of the particular activity regardless if occurring before, during, or after the duration of the activity. Releasor agrees to follow University policies when operating a University owned vehicle.

6. In consideration of participation in the Activities, Releasor hereby RELEASES and covenants not-to-sue the UNIVERSITY for any and all present and future claims resulting from ordinary negligence on the part of the UNIVERSITY for property damage, personal injury, or wrongful death arising as a result of his/her engaging in, using University facilities and equipment, or receiving instruction for the Activities or activities thereto, wherever, whenever, or however the same may occur. Releasor hereby voluntarily waives any and all claims or actions resulting from ordinary negligence, both present and future, that may be made by Releasor’s family, estate, personal representative, heirs, or assigns.

I further agree the venue for any legal proceeding shall be in the State of Nebraska. I understand the rights that I am waiving and that I am freely signing this WAIVER AND RELEASE. I have read and fully understand that by signing this agreement I am giving up legal rights and remedies, which may be available to me for ordinary negligence of the UNIVERSITY. I further agree to follow and abide by the regulations and rules of the UNIVERSITY as they pertain to the Activities and to reimburse and make good to the UNIVERSITY any loss, damage, or cost the UNIVERSITY may have to pay as a result of my participation in the program.
