Faux CFP Football Rankings

20201CR

College football's playoff era is entering its sixth season. The designated number of participants in this activity will join the facilitator in forming a faux CFP selection committee. Using a process like that of the real committee, participants will select and rank a weekly top 25 from mid-season on, culminating in the final four that should be in the playoff for the national championship. The art of selecting and ranking teams can be based on several criteria. The fun is in the process of collecting and analyzing information, assessing the outcomes of regular season games, applying the criteria, voting to determine rankings and comparing decisions with those of the real CFP committee.

Instructor/Facilitator: Jim Cunningham
Day/Dates: Mon, Oct 28, Nov 4, 11, 18, 25, Dec 2, 9
Time: 10 a.m.-12:30 p.m.
Location: SCC-CEC, Room 214
Enrollment Limit: This course is limited to 18 registrants (including the instructor/facilitator). The first 12 to register will join the facilitator on the faux committee (maximum 13); the next five will be alternate members, with observer status at all sessions and substitute status on an as-needed, rotating basis.
Cost: $35

Democracy and Tyranny in Classical Athens

20202CR

Classical Athens is often remembered as the first great democracy in western civilization. It was held up as an example by classically-trained leaders as they established the American democracy, as well as by many modern European states. Yet the Athenian democracy was a very different institution from our own. It required direct participation. It lacked a written constitution to curb the behavior of the masses. And, at its prime, it fed parasitically off of an empire of ill-treated subject states.

We will concentrate on the 6th and 5th centuries BCE. We will place the Athenian state into the larger Hellenic context. Then we will establish the major characteristics of that democracy and demonstrate how it acquired a powerful naval empire. Finally, we will see how the democracy faltered, yet endured, through the trying century that featured the Persian Invasions of Greece and the thirty year-long Peloponnesian War against Sparta. By the end of the 5th century BCE, after undergoing several episodes of extreme tyranny, the Athenian people established the sovereignty of the written law.

Events that Changed the Course of World History – Part II

20203CR

In this DVD course, J. Rufus, professor of Classics at the University of Oklahoma, does not attempt a summary of all of world history. Instead, he identifies the events that had a profound impact and indeed changed the course of history. In this term, Rufus confronts Dante and the divine comedy, and, in case that is too upbeat, the Black Death that killed 25 million in Europe. We voyage with Columbus, only to return for Michelangelo and the Sistine Chapel. We find that Erasmus actually sparked the Protestant revolution by penning accurate translations of the Greek and Latin biblical texts, and then, logically, we confront Luther and the Reformation. Then war: first the defeat of the Spanish armada and then of the Ottomans by forces of the Holy Roman Empire at Vienna. More war: The long-term meaning of the Battle of Lexington in 1775 and its implications for the U.S., with a similar analysis for the Battle of Gettysburg during the U.S. Civil War. Our last session turns bright with Darwin and Louis Pasteur. We will watch two 30-minute lectures per class, followed by 30 minutes of discussion. You do not need to have attended Part I to register.
**Nebraska Taxes:**
**Who Wins and Who Loses?**

**20204CR**

Bill Lock was a longtime research analyst for the Nebraska Legislature who also served in Gov. Mike Johanns’ budget office and in the Nebraska Revenue Department Property Assessment Division. He will lead OLLI members through a history of Nebraska taxes and a comprehensive look at how our state’s tax structure and public service funding compares to that of other states. In the process, we will learn what scholars say are the principles of a quality state revenue system, how Nebraska taxes benefit some subgroups while disadvantaging others and what alternative systems our state might consider. As the state and its legislature continue to struggle with Nebraskans’ outcry about what they see as unreasonably heavy property taxes, this course will help you be an informed part of the conversation.

A Small History of American Foods and Fashions

Next, the course explores American fashions, from the first English colonists to the Revolutionary War, from the Victorian Age to the present. How did the axioms “you are what you eat” and “the clothes make the man” come into existence? How do they apply in America and what do our food and fashion choices say about us as a civilized people? Also, what offshoot companies grew from our desire to eat and wear what we want?

Wondrous Berlin - Part II

20217CR
Three films taking place in Berlin and spanning the last half of the 20th century provide the framework for this course. As we know, Berlin emerged from being a war-torn city to become a modern metropolis. The films help describe the metamorphosis. We will view two classic Billy Wilder films, “A Foreign Affair” (1946) with Marlene Dietrich and “One, Two, Three” (1960-61) with James Cagney. Tom Tykwer’s film, “Run Lola Run” (1998-99) completes the trio. Described as comedies or thrillers on Rotten Tomatoes, these films nevertheless provide historical insights into a changing Berlin. A dedicated German professor and film aficionado, Peter Reinkordt, will again facilitate discussion of this German film course.

Instructor: H. Peter Reinkordt, professor emeritus, German, Doane University
Facilitator: Georgianne Mastera
Day/Dates: Tue, Oct 22, 29, Nov 5

The lectures will be devoted to establishing the distinctive portrayals of Jesus in each of the gospels. An additional lecture will look at how Jesus is portrayed in two gospels that did not make it into the New Testament, the Gospels of Peter and Thomas. Discussion will follow.

The Metropolitan Opera

Join Dr. Fabrikant as she discusses “What is Opera?”

The Metropolitan Opera was founded in 1883 in New York City and now spans the entire globe. Learn about its origin and history and about two upcoming performances, “Madam Butterfly” and “Akhnaten.”

“Madam Butterfly.” In 1904, a US naval officer named Pinkerton rents a house on a hill in Nagasaki, Japan, for himself and his soon-to-be wife, Butterfly. His marriage to her is for convenience and he intends to leave her once he finds a “proper” American wife. He leaves shortly after their wedding and years later he returns with his American wife and learns that Butterfly gave birth to Pinkerton’s son after he had left. Butterfly kills herself before she learns that Pinkerton realizes he’s made a huge mistake.

Akhnaten - Philip Glass returns to the Met with his new staging of “Akhnaten,” based on the life and religious convictions of the Egyptian pharaoh Akhnaten. Act 1 focuses on year one of Akhnaten’s reign in Thebes, including the funeral for his father and his coronation. Act 2 involves the dramatic years 5 to 15 in Thebes and Akhetaten, including a love poem to Nefertiti. The final act brings the audience to the realization that Akhnaten, Nefertiti, and their six daughters are oblivious to their country falling apart outside of their palace. The palace is attacked, the royal family killed and the city of the sun destroyed.

The Metropolitan Opera production is shown the following Saturday at noon and Sunday at 1 p.m. at the Mary Riepma Ross Media Arts Center.

Living on the Edge:
Adventure Sports as an Avocation

Mark Hutchins and Scott Bigelow are M.D.s who calmly handle patient crises with professional ease. But their adrenaline can really run high after leaving the hospital or clinic. Hutchins races cars. Bigelow is into ultra-cycling and mountain climbing.

Presenting his experience of competitive motorsport as an amateur avocation, he considers it to be like golf, but lots faster.

The following week Bigelow will share how and why he got into ultra-endurance cycling and how that led to other adventure sports—high altitude trekking and climbing, as in the mountains in Nepal, and back-country ski touring. He will tell about his experiences and give some pointers on how the average Joe can participate in such extreme sports.

### Civilians in Leningrad in WW II

**20241CR**

Learn how three Russian women diarists survived the blockage of Leningrad during World War II. Their diaries show us their struggle to survive starvation, frigid temperatures and lack of heat, electricity and running water. Two of the diarists had small children. Their diaries tell us their dedication to their families under extreme conditions. The women were not fragile flowers of the drawing room, but more like the resilient women pioneers of our American West. Leningrad at the time of the German blockade was a metropolitan area of three million people. Over one-half million starved to death. These diaries show us how Elena Scriabina, Elena Kokushka and Vera Inber survived and kept their families together with dignity and honor. The focus is on the women because most of the men were taken into the army, leaving mainly women to dig the trenches around Leningrad and to work in the factories and hospitals.

**The Way: Chinese Classical Philosophy I**

**20243CR**

What is the “Dao” or “Tao” or “the way?” Many are familiar with this term in Chinese philosophical thought, but few consider the multitude of understandings and interpretations that have existed throughout Chinese history. China has a long tradition of philosophical thought and debate that emerged independently of Western philosophical traditions, but few in the West have been exposed to the nuances and profundity of Chinese philosophy. This course seeks to explore the discourse of Chinese philosophy that emerged in early antiquity.

We will examine different schools of thought, such as Confucianism, Daoism, Legalism, Mohism and their historical context, reading and discussing the words of the great Chinese philosophers: Confucius, Mencius, Xunzi, Han Feizi, Laozi, Zhuangzi and Mozi. For those familiar with and interested in Western philosophy, this may be an opportunity to familiarize yourself with a wholly different philosophical tradition and epistemological root.

“In The White Man’s Image”

20249CR

Christine Lesiak discovered a hidden chapter in American history when she worked as a cinematographer at NET Television in the early 1980s. In the small Nebraska town of Genoa, she met local historian Alan Atkins, who took her to a shop building that was once part of a spacious campus. The Genoa Indian Industrial School, one of 26 such boarding schools across America, was modeled after the Carlisle Indian School in Pennsylvania. Carlisle’s stated goal: “Kill the Indian and Save the Man.” Lesiak will tell the story of this little known school in Genoa that inspired her to produce “In the White Man's Image” for the PBS series, “The American Experience.” See excerpts from the program which, 30 years later, is as relevant as ever. It is the story of cultural annihilation, still sending shock waves down through the generations.

2019 Fall Symposium

Celebrating the 19th Amendment: Women’s Rights Here and Abroad

20177EV

Join us in commemorating the 100th anniversary of the passage of the 19th Amendment to the U.S. Constitution that granted women the right to vote. Sponsored by OLLI and Global Perspectives: The Winter Lecture Series, the program will feature scholars from the University of Nebraska and other institutions, as well as Nebraska women in elected office. Hear about the history of the struggles for women’s suffrage; the impact of women in elections over the past century, as well as women’s involvement in elective office; and the status of women’s rights on a global scale.

Keynote Speaker:
Rhoda Howard-Hassmann, professor emeritus, Wilfrid Laurier University, Waterloo, Ontario, Canada

Dr. Hassmann will address international human rights with a special focus on women and women’s suffrage. She has written several books and articles on international human rights, including women’s rights. She was also a consultant for the creation of UNL's undergraduate program in human rights.

Speakers:
Leslie Working, adjunct instructor, History, Union College, Lincoln

Dr. Working will provide a history of women’s suffrage in the United States. Her dissertation, “Having Been Born Locomotive: Women, Mobility, Progress and Activism,” addresses the ways increasing mobility of nineteenth-century Americans impacted female activists’ ideas about women’s lives and how their assertion of women’s right of access to new technologies made travel to Western spaces a possibility for female reformers. She has taught at Ball State University, Nebraska Wesleyan University, Union College and UNL.

Katrina Jagodinsky, Susan J. Rosowski Associate Professor of History, UNL

Dr. Jagodinsky will address the effects women have on politics in the U.S., especially in the last 30 years. The diversity within women’s engagement in politics is an issue we are seeing come to a head national and one that will be important in the 2020 election.

“White Right: Meet the Enemy”
Thursday, Oct 10
20176EV

In this Emmy-winning documentary, acclaimed Muslim filmmaker Deeyah Khan travels to the U.S. from the U.K. to meet U.S. neo-Nazis and white nationalists face to face. Attending the now-infamous “Unite the Right” rally in Charlottesville, Va., she seeks to understand the personal and political motivations behind the resurgence of far-right extremism in America.

Speaking with proponents of alt-right ideologies, Khan attempts to discover new possibilities for connection and solutions. She chooses to engage, rather than dismiss the most extreme individuals she meets. As she tries to see beyond the headlines to the human beings, her own prejudices are challenged and her tolerance tested.

Panelists: Brian Jackson, Assistant Chief of Police, Lincoln Police Department; Scott Kurz, director of communications, Anti-Defamation League, Plains States Region (Serving Nebraska, Iowa and Kansas)

“Out of Many, One: The Immigrant’s Story”
“Take 5: American Haze”
Thursday, Nov 14
20251EV

The documentary “Out of Many, One” is a loving profile of the Citizenship Project, the New York Historical Society’s free program that assists green card holders in preparing for the USCIS Naturalization Exam, which tests knowledge of United States history and civics. Building to a naturalization ceremony conducted by Supreme Court Justice Ruth Bader Ginsburg, the film captures the anxieties and sacrifices—as well as the pride—of hopeful American immigrants who have made the journey here.

“American Haze” offers a look at immigration through the personal lens of comedian and filmmaker Kiran Deol’s own family’s story. Viewers get a glimpse into the glories and gritty realities of the immigrant experience.

Panelist: Max Graves, executive director, Center for Legal Immigration Assistance, Lincoln, Neb.
