COURSE FORMATS

IN-PERSON

Live (*Course numbers ending with “L” are located in Lincoln and those ending with “O” are located in Omaha.*)

MULTI-FORMAT

Live in-person and on Zoom. If you choose Zoom, we will email the Zoom link with your registration confirmation.

ZOOM LIVE STREAM

Live meeting online. We will email the Zoom link with your registration confirmation..

ON DEMAND

Recorded video programs available online. Watch at your convenience. We will email you a “Join Code” and instructions after you register.

How to prepare to use Zoom

Where do I find the Zoom link for my course?

- 1) A registration confirmation will be emailed to you after you pay for your course. This email will contain the Zoom link. Remember to make note of this email and create a folder in your inbox labeled “OLLI Zoom” and save it.
- 2) A course reminder will be emailed to you four days prior to the start date of the course. This email will also contain the Zoom link. Again, make note and save it.

If you can, print out the emails; otherwise save them somewhere in your email inbox. By creating a folder in your inbox for your OLLI Zoom links, you won’t have to search through your emails later.

What devices do I need to use Zoom?

At the most basic level, all you need to use Zoom is a telephone, such as a smartphone or landline. However, if you have access to a computer or mobile device you can use the full capabilities of Zoom. The following equipment will enhance your experience:

- Mobile devices, including laptops with cameras and built-in microphones.
- Web camera on your device: A camera will increase your connection with your instructor and your peers by allowing you to see each other face-to-face. If you do not have access to a web camera, you will still be able to see the instructor.
- Headset with a microphone: This will let you hear and be heard more clearly. This does not need to be fancy equipment; it can be the same as the headphones you might use with your phone.

How do I join a Zoom meeting?

You will receive a Zoom link for your upcoming OLLI at UNL course(s) in your registration confirmation email, and in a reminder email prior to class. Next to or underneath each class title, you will see a link. Copy and paste that link into your web browser OR click on the link to enter the digital classroom. If your course has multiple sessions, you will use the same link every week the course meets.

A Zoom account is not required to attend a class session. Anyone can attend a class session using their laptop or desktop (Windows or Mac), tablet, or smartphone (iPhone or Android). A free download of Zoom is available in your app store for your device.

- If you have not used Zoom before, allow about five minutes to set it up before your first use.
- If you use a laptop or desktop, the first time you click on a link it will download a free and secure program to your computer.
- If you use a tablet or smart phone, you will need to download the free and secure Zoom application from your app store.

All programming originates from OLLI at UNL.

Fly Girls

Instructor: Lynn Roper (5 sessions)

In 1929, at the dawn of aviation when every flight was a test of courage, 20 gutsy and passionate female pilots in propeller-driven planes raced from California to Ohio in the first female cross-country air race, making 18 stops in nine days. During World War II, the 1,034 Women Airforce Service Pilots (WASPs) ferried and flight-tested aircraft bombers in the U.S. and taught men how to fly. When the war ended, Congress clipped their wings and sent the WASPs home; they did not receive military status until 1977. In 1961, 13 remarkable women pilots underwent secret testing to become America’s first female astronauts. The Mercury 13 were ignored by NASA and on Capitol Hill while the USSR sent its first woman into space in 1963. Lynn Ropers and other experts of women aviators share this fascinating series of lectures.

Keep the Memories, Not the Stuff

Instructor: Jeannine Bryant (3 sessions)

Our attachment to “stuff” is real. Letting go can be difficult. Yet, holding onto too much stuff can be suffocating or immobilizing, preventing us from living our best life because we are too weighed down by our possessions. Learn the problem of “inherited stuff” as well as our own “keepsake clutter.” Get a new perspective on memories, life, and love – and how none of it is tied to STUFF. Learn hands-on tips and practical advice for choosing which possessions to keep, to get rid of, and what it really means to leave a legacy for your loved ones.

The Politics and History of American Civil Religion

Instructor: Jonathan Redding (4 sessions)

Americans love to talk about having a “separation of church and state” to justify certain ends. On the surface, separation exists; there is no official national religion, and religious discrimination is forbidden by the 1st Amendment. The reality is quite different, as what scholars call American Civil Religion weighs heavily on issues like American morality, legality, justice, and equality. Topics covered include religious freedom, religious choice, and whether this hypothetical separation of Church and State is real or a pipe dream. Consider theologies behind the dominant streams of American Christianity to understand how political and religious leaders use their understanding of theology for political, social, and economic gain.

The Early Days of Nebraska Volleyball

Instructors: John Mabry, Vicki Highstreet (4 sessions)

Volleyball has been a part of the UNL athletic landscape for more than a century, but the sport didn’t gain much notoriety until the early 1970s, when the Huskers began to put together a program that is now known worldwide. Learn how its reputation grew from its humble beginnings, reaching a pinnacle in August, 2023, when Volleyball Day put 92,003 in Memorial Stadium stands. Meet the players who made it possible from those early Title IX days at Mabel Lee Hall and the Coliseum.

Top Ten Mistakes Made in Estate Planning

Instructor: Andrew Loudon (1 session)

Andrew Loudon, a Lincoln attorney, takes you through the top ten mistakes people make when estate planning. Have you prepared your estate or are you waiting until the last minute? What other mistakes make this list?

Sport in American Culture

Instructor: John Shrader (4 sessions)

Sport has been an important part of the American cultural landscape from the very popular blood sports of the 18th century through the development of the boxing and horse racing industries in the 19th century and the explosion of baseball, football, and basketball in the 20th century. Our society seldom sees the confluence of income, class, race, gender, identity, and celebrity the way we do in sports. Examine the role of sport in our society and how the media have been both partners and observers. Take a deep dive into sport and how it fits into American life; it's not just about slam dunks, big contracts, SportsCenter and social media.

The Bible as Literature

Instructor: Jonathan Redding (6 sessions)

Study the growth and development of the collection of religious texts known as "the Bible." There will be an emphasis on historical events that influence both content and context. Religion, literature, social, and political institutions are integral elements in the historical process.

The 6888th All-Black Female WWII Battalion

Instructor: Lynn Roper (5 sessions)

In February 1945, 800 Women's Army Corps recruits in the segregated U.S. Army sailed to Europe to do something crucial to the war effort: clear a massive two-year backlog of undelivered mail to troops whose morale was low, due to having no contact from home and family. Though they experienced constant credential challenges and discrimination, the 6888th worked around the clock, 7 days a week, processing 65,000 pieces of mail each day.

Fascism: A Warning from History

Instructor: Anthony Foreman (4 sessions)

The word "fascism" has been increasingly used to describe some modern political movements across the world. Fascism is a loose, incoherent, and conflicted collection of ideologies, myths and hatreds that is difficult to define. Explore its origins in Benito Mussolini's Italy, its zenith in Nazi Germany, its continued influence in Cold War-era Spain and other manifestations throughout history. The course concludes with discussions surrounding today's political movements and assistance in helping to identify and confront any possible fascist threats - before it is too late.

Are you receiving the weekly “OLLI Connects” email newsletter?

Everyone who is an OLLI member is automatically placed on the “OLLI Connects” email newsletter list. Unless you unsubscribe, you should be receiving it.

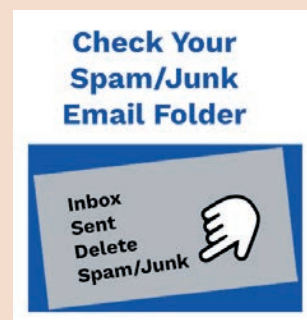

The “OLLI Connects” email newsletter is distributed every Tuesday morning at 8 a.m. (CT). There's information about pop-up social events and courses that are not in the catalog, discount offers to theater and musical performances, as well as other news.

Email filters sometimes mistakenly flag legitimate emails as spam or junk. In most email clients such as Gmail, Outlook, Yahoo, AOL, etc., there's a dedicated folder for spam or junk email. If you are not receiving the “OLLI Connects” newsletter, make sure you check your spam or junk folder.

Prevent the newsletter from going to your spam or junk email:

- If the newsletter does not arrive in your inbox, check your spam or junk folder.
- Some email clients allow you to move it over to your inbox, or you can select the email and click on “Not Spam” or “Not Junk” button.
- Add our email address – olli@unl.edu – to your contacts or safe senders list to prevent future emails from being filtered to spam or junk.

If you would like to be added to the newsletter list, email Patricia Saldana at psaldana2@unl.edu.

Highlights in Cancer Research and Care at UNMC

(OMAHA)

What's new in cancer research and care right here in Nebraska? Learn how the University of Nebraska Medical Center (UNMC) is working with public health leaders throughout the state to reduce cancer incidence. Obtain updates about screening strategies that can detect cancer early and how survivors can deal successfully with post-cancer treatment challenges. Find out how UNMC researchers are developing new ways to detect pancreatic cancers and to target gastrointestinal tumor cells while limiting side effects. Explore new multidisciplinary care strategies specifically designed for older adults who have cancer. Surprising discoveries will be revealed about how bacteria that live in our intestines influence both the onset of cancer and the effectiveness of treatments for it. Innovative findings about prostate cancer will be covered. Capping off the course, you will hear how foundational cancer research can lead the way toward the treatments of tomorrow.

Fossils on the Rotunda Floor

HIS015L

In 1927, Erwin H. Barbour, a professor of geology and zoology at the University of Nebraska and director of the Nebraska State Museum, was asked to fill another role: artist. Barbour drew pictures of fossil plants and animals for artist Hildreth Meiere to copy. She used these drawings to make mosaic pictures of fossils on the floor of the Nebraska State Capitol rotunda. Meiere also designed mosaics for the dome of the rotunda as well as for the foyer and vestibule. Learn about the fossils, the mosaics and what they depict. The fabrication of the mosaics, the materials used, and the overall project will also be covered, as well as stone used in constructing the building.

Model Citizens of Germanic Empires?

L&L064L

The days before the coming of the first world war saw the highpoint of the German and Austrian imperial governments, both of which then collapsed. We will consider how two fictional characters related to their regimes: Diederich Hessling in Heinrich Mann's "Man of Straw" and Ulrich in Robert Musil's "Man without Qualities:" one, totally "gung-ho" and the other, with a cool, superior distance. How does any government depend on some combination of the two sorts of perspectives on politics?

Run to the Roar: Secrets of Emotional Resilience

When lions hunt, the females hide in the grass while the males sit on a hill and roar. Unsuspecting gazelles then hear the roar, and naturally run away from it, right into the clutches of the waiting females. So, if you are ever in the Serengeti and hear a roar, you are better off running toward it, not away from it. We often hear the internal roar of emotional lions such as shame, depression, grief, anger and anxiety. When we do, our instincts are to run the other way. Learn the techniques and benefits of radical acceptance that encourage us to embrace difficult emotions to stay focused on what really matters in our lives. Participate in a positive atmosphere filled with humanizing metaphors, teaching stories, and the charming language of poetry.

The Pershing Mural: Bring It Home

In 2021, the Pershing Mural on one wall of the Pershing Auditorium was on the brink of destruction with no plans to retain it. A small team committed itself to saving the mural and installing it in a fitting location for future generations to enjoy. The first two class sessions will provide an update on the final stages of installing the mural at Wyuka Park, as well as connecting it to the legacy of General of the Armies John J. Pershing. The third session will be a tour of the newly renovated Wyuka Park and the Pershing Mural undergoing installation. Project contractors will explain the intricate techniques required to save what will become the largest free-standing mural of its type in the world. Both sections will meet in the classroom on June 11 and 18, then split into two groups for the walking tours June 25 and July 2.

Ruth Etting: From David City, Nebraska, to Hollywood

Ruth Etting was one of the most popular American singing stars of the late 1920s and early 1930s. Born in David City, Neb., she had a very successful career in Chicago, New York, and Hollywood. Florenz Ziegfeld, who glorified Ruth in the Follies, rated her as “the greatest singer of songs” that he had managed in a forty-year career. On radio she established herself as America’s pre-eminent popular singer, repeatedly voted as the top female singer on the air in national listener polls and recording over 200 songs by such composers as Irving Berlin, Johnny Green, Richard Rodgers and Lorenz Hart. Building America: Union Pacific Railroad Museum

HIS1260 (COUNCIL BLUFFS, IA)

Explore the rich history of the Transcontinental Railroad with a presentation and guided tour of the "Building America" exhibit at the Union Pacific Railroad Museum. Originally developed for the Smithsonian, the "Building America" presentation showcases a remarkable collection of 19th century photographs that bring to life the challenges and triumphs of railroad construction. Discover the stories of the diverse workforce—immigrants, laborers, and engineers—who built one of America's greatest infrastructure achievements. Through rare artifacts and immersive displays, gain insight into how the railroad shaped the nation's economy, communities, and westward expansion.

Instructor: Zachary Rady, education and outreach coordinator, Union Pacific Railroad Museum

Facilitator: Cheryl Richardson

Day/Date: Thu, June 19

Time: 1-2:30 p.m.

Waves, Particles and Our World: Into the Unknown

Discover the intriguing world of quantum physics, where the behavior of things around us defies intuition. Obtain an introduction to the principles of quantum mechanics, beginning with the captivating phenomenon of quantum interference. Explore Richard Feynman's "only mystery" in quantum mechanics through the iconic double-slit experiment, revealing waves and particles. The first mystery that has never been answered is: "What is it that moves the waves and particles around?". The second mystery called the quantum measurement problem and highlighted with Schrödinger's famous cat, which has also never been answered is: "What does that mean for our world around us?" We hope to share the excitement of the power of quantum mechanics together with its fundamentally unfinished nature.

A Night Under the Stars at Branched Oak Observatory

SCI052L (RAYMOND)

Join OLLI members on an evening field trip to the Branched Oak Observatory (BOO) in nearby Raymond for an unforgettable astronomical experience. We will meet experienced professional and amateur astronomers, deepen our understanding of astronomy, and see for ourselves the deep-space wonders of the night sky. After an orientation, we'll peer through telescopes at various stars, clusters, and galaxies, including the mighty Milky Way. If clouds get in the way or the weather turns inclement, we will gather in the educational center and see stored images. This first-rate observatory is equipped with state-of-the-art telescopes, including one that helps low-vision people see images on their tablets or phones if they're unable to view through the 'scope.

Instructors: Michael Sibbernsen, BOO co-founder and director of education; Brian Sivill, BOO board member, former president of the Prairie Astronomy Club

Facilitator: Clay Farris Naff

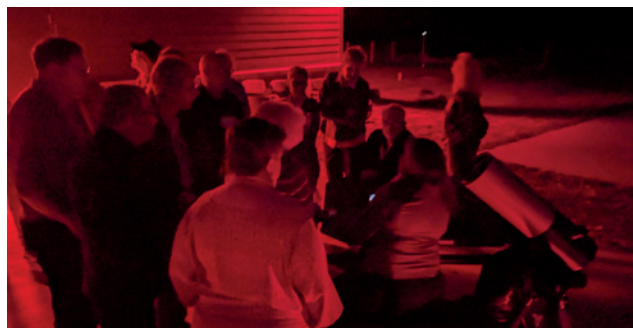

Day/Date: Thu, June 26

Time: 8:30-10:30 p.m.

BLUEBARN Theatre Presents: “The Wild Party”

ART1750 (OMAHA)

A steamy prohibition tale roars across the stage. Based on the widely banned 1928 narrative poem, this darkly brilliant show features one of the most pulse-racing scores ever written. Lovers Queenie and Burrs plan the party-to-end-all-parties to bring the spark back to their affair. Instead, Queenie’s wandering eye sends Burrs into a jealous rage. As the decadence reaches a climax, Burrs erupts. Gun in hand, Burrs turns on Queenie and her new lover. The gun gets fired, but who gets shot?

Join the production team for a talk before the show and stick around for a tour of the theatre with some Omaha history after the show.

Facilitator: Judy Hart

General Information and Policies

Animal/Pet Policy

As per UNL policy, animals/pets are prohibited at all functions, except for service animals approved by the UNL Office of Equity and Compliance. Animals which are approved must be confined or otherwise physically restrained. Review UNL policy at <https://www.unl.edu/ssd/content/policies-regarding-animals-campus>.

Course Recording Policy

OLLI at UNL selects certain courses to be recorded for future use. Recordings are not shared with members due to a missed session. Recorded courses are edited, archived, and used for future instructional purposes.

Drop a Course or Event

To be eligible for a refund, please notify the OLLI office 24 hours prior to the date and time of the first session of the course/event you want to drop. Please contact us during business hours, Monday-Friday, 8 a.m. – 4:30 p.m. (CT). This policy does not apply to courses and events with cancellation deadlines. For eligible cancellations, you may choose to receive a refund or donate the course fee to OLLI.

Email Notifications

Make sure we have your correct email address. The OLLI office sends emails to notify members of Zoom invites and course changes, course cancellations, upcoming events, as well as for our email newsletter. Instructors or facilitators may also want to contact students regarding class information. Your information is always confidential.

Guest Policy

Members may bring a guest, an individual who is NOT currently an OLLI member, to one session of a course **if** space is available. Contact the OLLI office at least two days in advance for approval and to make arrangements. Some exclusions apply.

Membership

Memberships are non-transferable and non-refundable.

Postponed, Cancelled or Full Courses

If a class is postponed, you will be informed of the rescheduled date. If a course is cancelled or full, you will receive notice as soon as possible. You will be given the following options:

- Add your name to a wait list
- Register for an alternate course
- Receive a refund
- Donate your course fee

Weather-Related Cancellations

If UNL closes due to weather conditions, OLLI in-person and multi-format courses, and events will be canceled. Zoom-only courses may take place. Call the OLLI office after 8 a.m. or check the OLLI website (olli.unl.edu) for weather-related information.
